ENERGY STAR® is for roofs too.

Similar to the energy-efficient appliances in your home, roofing products can help provide energy-saving qualities. Owens Corning® Oakridge® Roofing Shingles in Shasta White can help reduce your heating and cooling bills when installed properly. These shingles reflect solar energy, helping to decrease the amount of heat transferred to a home's interior — and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.
